## **Proceeds Support:**

### **Proceeds from the May 4th's Diane's Pen Pals event specifically supports alternative therapies:**

Alternative therapies can be beneficial to a person's overall wellbeing, as the approach focuses on healing the mind, body and spirit. Treatment methods such as massage therapy, acupuncture, meditation and reflexology, give patients relief from the harsh side effects of treatment. Not all patients can afford these vital therapies. Your support can make the difference.
